BOROUGH ORDINANCES.
Ordinance Taxing Dogs.
It is Ordained by the Town Council of the Borough of Gettysburg, and it is hereby ordained by authority of the same, That from and after the first day of May next, all persons owning or harboring Dogs or Bitches in said Borough, shall be taxed for the same, for the use of the Corporation. And it shall be the duty of the Borough Constable, or such other person as may be appointed for that purpose, immediately after the first day of May, in each and every year, to make a correct list, and description of all Dogs and Bitches, owned, kept, or harbored within said Borough, and return the same, with the name of the owner, or person harboring the same, to the Town Council, for which service he shall receive the sum of Five Cents for every Dog, and Ten Cents for every Bitch so returned by him.
11. That every person owning, keeping or harboring but one Dog within said Borough, shall pay annually a tax of Fifty Cents for the same; if more than one, the tax shall be One Dollar for the second, Two Dollars for the third, and a proportionately increased amount for any greater number; for Bitches the tax shall be Two Dollars for the first, Four Dollars for the second, with a like increase for every additional one kept; said taxes to be collected and received by the Borough Collector, who shall have and possess the same powers in the collection of the same, as are usual in other cases.
Passed April 3, 1854.

The Great Spruce-Street Fire.
THE on-brewed would respectfully inform his patrons and the public generally, that in consequence of the destruction of the publication office of
"THE CHRISTIAN DIADEM," in the conflagration of the 5th of March, by which part of the March edition was destroyed, that it required two or three weeks to re-produce the same, and mail it to those subscribers who were not previously supplied; for which delay we beg the kind indulgence of our patrons and friends. The April number will be issued as early as usual.
The Diadem will be reproduced with increased elegance and enterprise, and no expense spared to make it still more attractive, interesting and useful to the home circles of our fifty thousand readers.
We are happy to announce that our choice PREMIUM PLATES for 1854, were saved, so that we can still furnish my regular number of the gem engraving, representing the "Marriage of Gen. Washington," or the superb portrait of the Rev. Henry Ward Beecher, exactly to all old and new subscribers, who send us "THE DOLLAR" for the 1st of January, of which have been, and are still coming, from every direction, and by every mail.
As the Diadem is strictly a moral and religious work, entirely free from secularism, well adapted for the purpose of edifying, and to take the place of the books of mere and fictitious works of the day, we hope to receive a continuance of the sympathy and aid of the friends of morality and religion generally.

This certifies that I have for a number of years been

The British arrived at New York on Monday morning, bringing four days later news. Lord Hudson has addressed a note to the Spanish Government, requiring that it shall close its ports against Russian Privateers. The Russian Government has also issued an order prohibiting any privateers under the Russian flag from being armed, provisioned or harbored in any Spanish port.

The combined fleets are still in Kavarina Bay; the Russian fleet is at anchor in Sebastopol Harbor; but no engagement had been taken place. The report that the Russian fleet had been taken by the British. On the Danube there is much excitement; the Turkish fleet is much inferior to the Russian fleet, but the latter is constantly advancing, notwithstanding Turkish fortifications and courage; but as by this time the French and British troops will have arrived, the next news will probably give a different aspect to affairs.

The explosion of all the Greeks from Constantinople is confirmed. The chief reason for their expulsion is that in case of an armistice at Constantinople 25000 enemies will be acquainted with the city would prove dangerous. "Exceptions are made for such as can give service for their good behavior." It is, however, rumored that many poor families who suffer with the war. This is one of the worst evils of war, that the innocent suffer with the guilty.

The greatest unanimity exists between France and England. A treaty offensive and defensive has been concluded and signed between them.

The markets. Flour has advanced from 1s. 6d. to 1s. 7d. There is no speculation going on, but there is a large daily consumption demand. Corn has advanced 1s. and but little doing in the market.

Letters from Stockholm of the 6th confirm the statement that the Russians had dismantled all the fortifications on the islands of Åland, and had retired with guns and stores to the mainland. The czar had further ordered that all ships and men capable of bearing arms, should remove from the islands to the mainland of Finland, and also to remove or burn all ships and boats. This system of defense is to be pursued along all the shores of the Baltic and of the Black Sea.

The czar is to reside, during the war, alternately at Revel and St. Petersburg. The Grand Duke (oldest son) is to proceed to Heligoland, and the Duke Constantine has assumed command of a division of the Russian fleet, which, protected by 800 pieces of cannon, will anchor within the fortified seven islands of Swabow. There are no Russian ships of war before Revel, because the fortifications of that city do not sufficiently protect a fleet.

One mode of defending the entrance of Cronstadt is now dangerous. Strong iron chains, charged with powder and other combustible materials, are sunk in the channel and connected by wires to a galvanic battery. Above the chains is some machinery, which, on being touched by the keel of a passing vessel, completes the galvanic circuit and explodes the mine. A hundred of these dangerous inventions are sunk in the narrow entry to Cronstadt.

Bad State of Affairs in the Holy Land.—A letter from one of the party of American travellers in the Holy Land, gives a melancholy account of the present condition of affairs there. The Turkish troops having been withdrawn to fight the Russians, anarchy, disorder and violence of all kinds are prevailing. Many of the inhabitants have taken refuge in the walled towns, and the peasants, as they work in the fields, have with them their arms loaded for an encounter. Bands of Bedouin robbers traverse the country in every direction, and the party to which the writer was attached, was attacked, and one of them wounded. Thus, while Europe is about to plunge into a war, originating in the question as to the control of the Holy Places, the inhabitants of that one region are left at the mercy of the spoiler. In one case it is stated, that forty men and two women were massacred by a party of Bedouin vagabonds.

Shipwrecks on the British Coast.—The following extract from the official report of a committee gives a fearful picture of the loss of life and property in the British waters during the two last years:

"The committee lament to state that the destruction of human life from shipwreck has been very large on the coasts of the United Kingdom during the past year. The committee had occasion to observe in their last report that the year 1852 had been the most disastrous as respects shipwrecks on record; the large number of 1109 wrecks, with the loss of upward of 900 lives, having taken place during that period on the coast of the British Isles. And they regret to have to state that, as far as could be ascertained from Lloyd's List and other authentic sources, nearly 800 wrecks, with the loss of about 870 lives, occurred on the coast and within the waters of the United Kingdom in the year 1853. In the awful gale of last January, 257 wrecks occurred on our coasts, accompanied by the fearful sacrifice of 436 lives."

Death of a Centenarian.—The Windham county (Conn.) Telegraph records the death of Deacon Daniel Clark, of Brooklyn, at the advanced age of 101 years 11 months and one day. He was born in Chatham, removed to Brooklyn in 1789, resided there till 1840, then removed to Plymouth (Vt.), and thence back to Brooklyn about ten days previous to his death, having made the railroad journey of one hundred and sixty miles from his Vermont home in a single day. Though long delayed, death came suddenly at last. He complained of a pain in his side, and died peacefully within five minutes thereafter. Deacon Clark belonged to a family of which longevity has been regularly characteristic. Both his grandfather and father lived to the age of 94, while his grandmother lived to the age of 99. Two of his uncles died at the age of 98, one aged 91, one aged 89, one aged 84. Of his own generation, two attained to the ages respectively of 88 and 81, while younger brothers and sisters still living have already passed their thirtieth years and ten.

Disposition of Waller's land.—A letter from Sam. H. Waller states that Waller and forty of his children were about to abandon their camp and desert the Texas. They had burned 2,000 pounds of powder and destroyed all their arms and stores.

Disastrous Fire.—Great loss of property and several lives. The thunder storm on Thursday night was succeeded, in New York and the vicinity, by forty-eight hours of continuous rain, ending finally at an early hour on Sunday morning. Outside of the city the ground has been thoroughly flooded, and much damage has been done to railroads, water courses, and perhaps to winter crops. The Tribune of Monday says:

On the Harlem railroad one or two important bridges were carried away, but the damage will soon be repaired. On the Hudson river road, two hundred and fifty feet of the Bridge over Croton river was destroyed, and in other places embankments washed down. The through train which should have gone up last night did not start. The way-trains to Sing Sing will run late afternoon as usual. On the New York and Erie Railroad extensive damage was done, and several lives were lost at Stewart, a few miles west of Port Jervis; they being carried into the river by a large quantity of earth, which loosened and gave way. The New Jersey railroads have, so far as we have learned, mostly escaped damage or interruption to travel, beyond a detention of the Philadelphia train for a few hours on Sunday, on account of the track at Bordentown being overthrown.

Between Albany and New York all the landings are flooded, horses swept off fences destroyed, and trees uprooted. Several large factories had also been destroyed. At Patterson, N. Y., the Passaic river is higher than it has been for forty years. In New York city basements and cellars have been flooded, side walks and pavements washed away; trees and shrubbery completely prostrated, and flower gardens and vegetable beds submerged. The loss of property in various sections, as far as ascertained, is estimated at one million of dollars.

EASTON, Pa., May 1.—The Delaware river has been higher yesterday and today than at any period since the great freshet of 1841. The water commenced rising on Saturday night, and yesterday morning had reached twenty feet above its usual height. It continued rising until last night, overflowing the Delaware division of the Pennsylvania Canal, washing away the last lock of the Morris Canal, besides injuring Holmdel Railroad in two places. The train that should have left at 7 A. M. did not get off till 10 o'clock, when the damages to the railroad were repaired. Immense quantities of sawed lumber passed this place, loose and in rafts, and those engaged in lumbering above have sustained losses beyond estimate. The Delaware Canal is entirely covered with water, and no idea can be formed of the extent of damage until the water falls. The Lehigh now about ten feet. Both rivers are falling now.

New York, May 1.—There has been a great flood in Newark river, and the bridges, wharves and factories are damaged to the amount of upwards of \$40,000.

Three bridges on the Danbury and Norwalk railroad have been washed away, with considerable damage to the track.

HARTFORD, Conn., May 2.—The water continued to rise yesterday night 4 o'clock, when it came to a stand. It was then twenty-nine feet and a half above low water mark, being two feet six inches higher than during the flood of 1801.

In the eastern part of the city, Commerce, Front, Kibbourn, Ferry, Potter, Ellery and Charles streets, were covered with water three weeks long. A large stone scow passed through Front street from one end to the other. Hundreds of families were driven from their dwellings and several persons drowned. The shed boats were floating about the city.

A great number of bridges were washed away or damaged. The canal is also greatly injured.

The damage to factories, mills, &c., is also very great, and over 2,000 operatives have been thrown out of work. The loss is estimated at \$100,000.

NORWALK, Conn., May 2.—In this town the following factories and mills have suffered more or less by the flood: Ludford's leather mill, loss not very large; the paper company's dam and canal, loss \$1,000; Windpauk mills, loss \$1,000; Union factory, loss severe; Hubbell's mill, at Norwalk bridge, about one-half washed away, with goods and grain. Loss about \$4,000. Several wharves have been washed away, and many houses and stores damaged. The Danbury and Norwalk Railroad Company have lost three bridges.

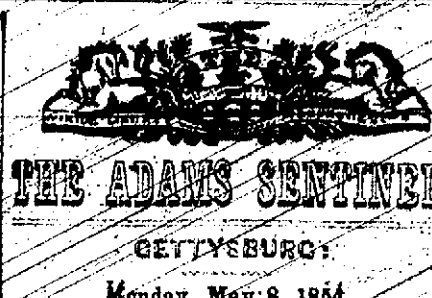

All the free-stone quarries on both sides of the river, in Portland and Crownfield are filled with water.

Large numbers of families have been forced to leave their houses at Middletown. Several milldams in the vicinity have been carried away, and the railroad track has been submerged.

Conditional Legislation.—The Richmond Enquirer, speaking in reference to the modern plan of submitting laws to the people for ratification after they had been passed by the legislature, says very truly that the practice "is an invention of modern times, and is as base in its origin as it is vicious in its tendency. Before public men began to lose the virtues of manliness and independence they did not attempt to evade the responsibility of duty. But the spirit of demagoguism is as fatal to personal courage as to genuine patriotism, and when men began to make the interests of the State subordinate to schemes of individual aggrandizement, they lost the dignity and manliness of character which shrink not from the responsibilities of public duty. Then they began to invent devices for evading the just responsibility of their position, and when for the first time was introduced the expedient of conditional legislation."

The Enquirer is right. The plan of sending out bills to the people for ratification originated in the feeble and ineffectual power of legislatures who passed prohibitory liquor laws, and were at the same time afraid to stand by them unless they could get an endorsement of their acts from the people. The article here, however, about conditional legislation, seems to have been devised to be passed with such amendments as would be unconstitutional, and people every where condemn such demagoguism and half-finished legislation. —*Providence Journal.*

A Weather Ship.—An old hunter predicts that the following will be a dry summer from the fact that woodpeckers have built their nests in two moist places. When the summer is to be wet he says they build in dry, sunny situations.

GETTYSBURG:
Monday, May 8, 1854.
WHIG STATE TICKET.
FOR GOVERNOR,
JAMES POLLOCK.
OF New Cumberland county.
FOR CANAL COMMISSIONER,
GEORGE DARSIE.
OF Allegheny county.
FOR JUDGES OF SUPREME COURT,
DANIEL M. SMYSSER.
OF Montgomery county.

The Legislature of Pennsylvania will adjourn to-morrow.

Our Representative in Congress, Mr. Russell, went on again to Washington on Tuesday last, his health having been considerably improved.

We have received from a city Agent for publication, an advertisement entitled "100,000 Gifts for the People." Being opposed, upon principle, to Lotteries of every description, and knowing, also, that the publication of such notices is contrary to a law of the State, we decline giving publicity thereto. Our Agents, therefore, will bear this in mind hereafter.

"The Singing Birds."
Our citizens had an opportunity, for two evenings of the past week, to hear the warblings of Mr. Porten's "Singing Birds." The Hall was crowded to overflowing; showing the peculiar interest felt in the pleasing performance. So far as we have heard public opinion, there is but one expression of high gratification at the interesting exhibition.

Director of the Poor.
On Monday last, the Directors of the Poor appointed Wm. Monks, Esq., of Mettallen township, to fill the vacancy in the Board occasioned by the death of James Bigham, Esq.

The dwelling-house of Mr. ISAAC MILLER, of Straban township, was struck by lightning on the 22d ult. A corn broom on the garret took fire, but was immediately discovered and the flame extinguished.

At the election, on Monday last, for Managers of the "Gettysburg Water Company," the following gentlemen were chosen:—James A. Thompson, George Swopes, Samuel R. Russell, Abraham Arnold, Geo. W. McClellan.

A bill re-organizing the Common School System, has passed both Houses of the Legislature, and is now a law. One of the sections provides that the School Directors of the several Counties shall meet in Convention at the seat of justice in each County, on the first Monday of June next, and on the first Monday of May in each third year thereafter, and elect one person of literary and scientific requirements as County Superintendent for the three succeeding school years, and also fix his salary.

A man named Richard Barry, living in Wrightsville, ate a hearty supper on Tuesday evening last, and went to bed apparently in good health, but before midnight he was a corpse—supposed to have died in a fit. And on the next afternoon, his wife, while sitting on a chair conversing with some one present, complained of dizziness, and immediately fell off the chair dead. Both were interred.

Putnam's Monthly. For May, is an excellent number, and its articles choice. The article on "Henry Clay as an Orator," makes the blood course rapidly through the veins of the friends of that noble American.

Harper's Magazine. for May, is also on our table. It is, as usual, done up in beautiful style, and filled with choice articles.

At the last Court in Chester county, all applications for license for porter and ale-houses, and for stores to sell vinous and spirituous liquors, were refused; as well as awards of forty pennies for tavern license.

At the Corporation election in Westminster, on Monday last, Francis Shriver, the Temperance candidate, was elected Mayor, by a vote of 134, to 35 for J. Blizard.

The Maine Law candidate for Mayor of Wilmington, Del., was elected on Tuesday last, by 111 majority over the regular whig candidate.

The damage done by the late storm to the railroads in the vicinity of New York so interfered with the regular supplies of milk, as to enhance its price to twenty-five cents a quart.

The General Assembly of the Presbyterian Church (Old School) in the United States will hold its next annual meeting in Buffalo, on the 18th inst., and will be opened with a sermon by the Rev. John C. Young, D. D., the Moderator of the last Assembly.

To a gentleman talking with him about the Administration, one day last week, Col. Benton remarked, "I never expressed that I had much respect, but I did think they had more sense than to know that if they applied a match to a powder-barrel it would explode."

Illness of the Governor.
Governor Bigler was quite ill on Thursday last, and confined to his bed, from congestion of the lungs. He was able to sign but one bill, that consolidating the Susquehanna railroads, and that required great effort.

[P. S. The Governor was better on Friday and vetoed four bank bills.]
The Word excitement still continues very great in Kentucky. The papers of that State are filled with proceedings of public meetings, in all of which Gov. Crittenden is denounced and requested to resign his seat in the Senate. The Wards have left Louisville, and the whereabouts of the leader is unknown.

On Wednesday last, in the H. of Rep. of the U. States, Mr. Russell presented a petition of citizens of Gettysburg, Pa., in behalf of religious freedom, and for the protection of American citizens in their rights of conscience, &c., in foreign countries.

A railroad collision took place on the Columbia road, near Paoli, on Wednesday, between two freight trains. Four men were injured, two of them seriously. The locomotive was damaged, and the wheels and axles torn from eight empty lumber trucks.

The handsome and capacious church in Quebec, built by the Sisters of Charity, and recently fitted up at great expense, for the use of Parliament, was totally destroyed by fire on Wednesday night, with several adjoining buildings.

Connecticut is now a Whig State. The election of State officers by the Legislature, took place on Monday last, and resulted in the choice of a Whig Governor, Lieutenant Governor, Secretary, Recorder and Treasurer. Henry Dutton is the Governor elect.

Latest from Europe.
The steamer Africa arrived at New York on Friday, bringing Liverpool dates of April 22.

There was a slight advance on Bread stuffs.

The treaty of close alliance between France and England had been ratified.

The treaty of alliance, offensive and defensive, between Austria and Prussia, had been signed.

The news from the Baltic, the Black Sea, and the Danube, is the same as by the previous arrival.

Emigrants for Liberia.—There were in Norfolk, on Tuesday, about one hundred free colored persons preparing to emigrate to Liberia, and eight more were expected the same evening. These emigrants are from various parts of Virginia and North Carolina. They will embark in a few days, on board the ship Sophia Walker, of Baltimore, which has been chartered for the purpose.

Rights of Neutrality, &c.—It is said that official intelligence has been received at Washington, that the British Government refuses to guarantee the rights of neutrals by treaty, and that no treaty on the fisheries question can be made at present.

The Fruit.—The Washington Sentinel learns from a gentleman of Montgomery county, Maryland, that there was never in that section of the country prospects of a finer fruit season than the present. Apple, peach, pear and apricot trees are in full bloom, and the severity of the weather seems to have given them a new impetus instead of doing them an injury.

The Coming Crops.—It appears from an examination of writings in relation to the crops contained in the papers from nearly all the Agricultural States, that the prospect of an abundance is more promising than usual at this season of the year. The seasons is backward, but the winter grains appear to have wintered well as a general thing.

The State Works.—The Philadelphia Ledger, of the 26th ult., says "the Pennsylvania Railroad Company held a special meeting yesterday in relation to the purchase of the main line of the State Works, authorized to be sold by the act of the Legislature, for ten millions of dollars. The Company, after consideration of the subject, resolved not to make the purchase."

At the city election in Quincy, last week, the Democratic candidate for Mayor was elected by a majority of one vote. Another proof that even one Whig vote can not always be spared. It is asserted that the successful candidate was aided by illegal votes, but it is much easier to poll a few votes more than are actually required, than to remedy illegal voting after an election.

The Temperance Convention which assembled on Monday last in Philadelphia, nominated Hon. Robert T. Conrad, as their candidate for Mayor. Judge Conrad is now the nominee of the Whig, Native and Temperance parties, and can scarcely fail of being elected the first Mayor of the Consolidated City.

Frost and Snow in the South.
NEW ORLEANS, May 2.—There was a heavy frost on the 30th ultimo in the vicinity of Natchez. Snow also fell in South Alabama to a considerable depth. They young cotton crop is reported seriously injured, and in some instances entirely killed. The weather has been unusually cold here.

The President, on Wednesday last, sent in a message to the Senate, vetoing the Bill granting donations to the several States for the relief of the indigent insane. The National Intelligence thus remarks upon the veto:—"The regular readers of this journal are too well acquainted with our sentiments in regard to this bill, to need any expression of our deep regret that the Chief Magistrate should have felt himself under the necessity of giving to it his official veto. Nor is our surprise less than our regret. The public lands have been bestowed by law on so many objects of humanity, education, and public improvement, that when this most beneficent measure of all—not local or partial, but general in its application—granting to the States for a sacred purpose to which their individual resources are inadequate, only a portion of that which is their own—a measure which had received the sanction of one branch or the other of successive Congresses, and now the concurrent sanction of both—we confess that we were not prepared to see it receive its quietus from the application of the Tribulation power of the veto. We sincerely regret to have to differ with the President on this very grave act of his; but we confess that his constitutional objections to this measure were the more unexpected to us, because we had seen some gentlemen in the Senate, not only of his own party, but of the strict construction school, defend the bill against the argument of unconstitutionality."

The following is the vote in the Senate, March 8, on the passage of the bill granting land to the several States for the benefit of the indigent insane:

Yea—Messrs. Butler, Bell, Brown, Chase, Clayton, Dimes, Dodge, of Wis., Everett, Kenton, Fish, Foot, Geyer, Hamlin, Houston, Jones, of Tenn., Morton, Rusk, Seward, Sumner, Stuart, Sumner, Thompson, of Kentucky, Wade, and Walker—25.

Nays—Messrs. Adams, Atchison, Butler, Cass, Clay, Dodge of Iowa, Douglas, Fitzpatrick, Mason, Pettit, Waller, and Williams—12.

Absent, 23—two vacancies.

Among the different propositions now before Congress is one for a line of mail coaches from St. Louis to San Francisco. It will, perhaps, be as well to try stages first before entering on a four hundred million project of a Pacific railroad. Meanwhile it will, perhaps, not be amiss to state that the mail line from Fort Independence to the Mormon city, and thence to Sacramento, has proved an entire failure, and that after a three years' trial, it is to be abandoned. In the place of it the Postmaster General has substituted a line from the Mormon city to San Bernardino, or San Diego, thence thence to San Francisco. Of all the routes thus far discovered, the Tebanette route is incomparably the shortest, safest and the most expeditious.

A singular abuse of the franking privilege and fraud upon the post-office has come to light. A packer for two members of Congress, authorized to use their names for franking documents, has been detected selling franked envelopes at fifty cents per hundred. An agent for claims purchased a lot and enclosed eleven hundred circulars to pass through the city post-office. An investigation led to a detection of the fraud. The matter has been compromised.

The ladies of Hollidaysburg have formed a prohibition league to prevent the granting of licenses to sell liquor in the borough. They recently appeared before the Court en masse, and insisted that the Sunday liquor law had been violated by all the hotels, and the bench must, according to its order some time since, refuse them license altogether.

The Ship Tawanda arrived at Philadelphia, on Friday last, from Liverpool, with a large number of emigrants on board; and it was stated that there were forty or fifty deaths on the passage, from a disease resembling the cholera. The ship was not permitted to land in dock, although the passengers were taken on shore as fast as they could be in small boats. Philadelphia had yellow fever last fall, from like carelessness.

American Hair Restorer vs. Builders.
One of the most important modern discoveries, and one that has won considerable reputation and has a collection of evidence in its favor, hitherto not acquired by any other article for the same purpose, namely, the restoring of hair on bald heads—is the preparation heading this notice. The idea of producing a crop of new hair on heads that have been bald for years, has, we are well aware, been often attempted, but we do not know of any, unless a few isolated cases, where success has attended a remedy for that purpose. The American Hair Restorer, undoubtedly, has a list of respectable evidences in its favor, among them clear and distinct cases of baldness, of years standing, certified to by persons who certainly would not allow their names to be used in that connection unless there was a reality in it. The Restorer is worthy of the attention of those who are bald, and also of those who are becoming bald, as we are assured that it will lessen the hair and prevent its falling off, and we cannot doubt from the evidence in its favor, that it will restore hair on bald heads in a majority of cases. The San Antonio Ledger of the 11th ult., gives intelligence that Mr. Gallagher's ranch, about twenty-three miles from the city, had been attacked by a party of Indians, supposed to be Comanches, who killed and drove off a number of sheep and carried off or killed a man and a woman, the shepherd and his wife. They also killed an American named Forrester, knocked his wife down with a club, and probably killed their four children.

The City of Glasgow. There is no thing yet of this missing steamer, and the probabilities of her safety are growing less every day. The Philadelphia Inquirer says: "We yesterday met with a gentleman at the Exchange, who suffered deep and natural anxiety, in consequence of his wife, four children, and 8000000 fortune in specie being on board. There is actually a hope of her safety."

Interesting from Europe.
The New York Times has private advices from London, that the revolutionary committees there have effected organizations for a revolutionary outbreak in all the continental countries, so soon as active hostilities between Russia and the allied powers render peace improbable. As an outbreak in Poland, however, it is said, is not likely to displace the Western cabinets, a democratic rising is to take place immediately throughout Prussian Poland, and particularly in Warsaw. This outbreak, the reformer of the Times says, has probably ere this, taken place. The following is also added:

The military authorities in Transylvania and other parts of Hungary have ordered the instant suppression of all the societies and weapons that could be used as weapons at the outbreak of the dreadful insurrection. The carcasses of the for-tresses are almost doubled all over the country, and martial law prevails, with unmitigated severity. At Motmash, twenty-seven men were condemned to imprisonment for from ten to twenty years. A young lady, convicted of sending letters from exiles, has been sentenced to six years' imprisonment.

The news from Europe becomes more exciting by every arrival. We are now expecting to hear of something short and sharp, between the contending powers, that will give us some idea of what may be expected ultimately. It is supposed that Admiral Napier will, as soon as possible, hunt up the Russian fleet and set the ball in motion. The war will be very up to the doing of the Russian Squadron, which had stolen a march on Commodore Perry's Japanese Seas, for no doubt the East India British Squadron will hurry after them and put them where they will be unable to report themselves to the Emperor. Report says that they succeeded in getting a promise that certain ports shall be opened for the purpose of supplying vessels with water, fuel and provisions, and that trade of course would soon follow. This privilege has been granted to all ports alike. Commodore Perry and the English will soon find out the correctness of these reports, and at no distant day all the facts will be before the world at large.

The mail train of cars which left Wheeling on Friday last for Baltimore run over and killed three fine young colts, valued at \$100 each, belonging to Mr. McCrehen, four miles below Wheeling. The cars were not thrown off the track.

At Fredericton, (N. Brunswick) the people are blowing up the ice with gunpowder. An experiment was made on the 22d, where the ice was 25 inches thick, and over it were four inches of half melted snow. A hole was cut through the ice, and a tin vessel containing twenty pounds of powder was put down into the hole under the ice, and the charge fired by means of a galvanic battery, which resulted in heaving up the water and ice over an irregular area of at least thirty feet in diameter to a height of nearly sixty feet.

Have we any Bonnets Among Us?—The rule now is, place a little wisp of pasteboard so far back on the head that the wearer can't see any part of it. The patch is secured to "aphrodisiacalness" by a water, and the stars look down on "the place where the bonnet ought to be."

Lynek Law in Tennessee.—A poor wretch, a stranger, who hired himself to act as hangman at a recent execution of a slave in Franklin Parish, Tenn., was horribly lynched by a mob on the ensuing night—beaten, knocked down, stamped and jumped on, tarred and feathered, and finally deprived of one of his ears. Several arrests have since taken place.

Another Victim of Spiritualism.—Two young ladies of Lawrence, Massachusetts, in order to realize the happiness of the "spirit land," took luncheon last Sunday evening. Miss Emily L. took died in a few hours; but Miss Augusta H. Ramsdell, who had taken a smaller dose, fortunately escaped the fate of her unhappy companion.

The Slave Ship.—The persons found on board the brig Glanmorgan, captured by the United States brig Perry on the coast of Africa and sent to Boston, had a preliminary examination and have been fully committed for trial. The testimony was conclusive that the captured vessel was fitted for the slave trade. The penalty against the captain, if convicted of the charge, is death, of the men not exceeding two years' imprisonment and fine not exceeding \$2,000.

A Murder.—It is said there is a \$14,000 of real estate and \$1,100 personal, and sitting in a room worth \$50,000, who begs in the street and lives in the greatest destitution in the garret of his own house.

Authentic Report of the Late Battle with Indians in New Mexico.
Letters from Chihuahua Burgwin, near Taos, to the 31st of March, have been received at St. Louis, from which the Republican gathers the following authentic particulars of the late desperate battle between the command of Lieutenant Davidson and the Apache Indians, a few miles from Taos. On the night of the 25th of March Lieut. Davidson left Cantonment Burgwin in command of fifty-seven men in pursuit of the Apaches, who were supposed to be about one hundred strong. Next morning he came upon the Indians posted on a mountain, and far exceeding in numbers what had been represented. They numbered at least two hundred.

There was but one alternative, as the Indians raised the warwhoop on the approach of the command, and the attack upon them commenced at once. After a fight of three hours, during which Lieut. Davidson lost twenty-two men killed and twenty-one wounded, (two-thirds of the command being killed and wounded,) he was forced to retire, fighting his way over two miles, and with the disadvantage of having the wounded to carry with him. Lieut. Davidson received an arrow wound, not very severe, in a hand to hand conflict. Surgeon Magruder was also wounded slightly.

The victory was a dearly bought one to the Indians, as about fifty of them were killed, and nothing but their superior superiority in numbers gave them the triumph. Another letter, dated the 31st, says:

"They commenced firing upon us, every shot taking effect either upon the horses or men. It was a sight and sight to see so many men falling dead by my side. We were in so bad a place that the Indians had great advantage of us, and when we retired they were on all sides of us; had we stopped three minutes longer not a man would have been saved. The wounded are now in the hospital. A Mexican whom I met in Taos yesterday told me that he was at the place of action yesterday afternoon, and counted sixty dead Indian bodies. Major Blake and Thompson, with a few troops and a large number of Mexicans started last night to bring in the dead bodies, and to attack the Indians, if they could be found."

Everything was safe at Cantonment Burgwin, there being fifty odd men there. It was expected that the whole of the General's disposable force would be sent out against the enemy.

Congress.
The proceedings of Congress are without interest. In the Senate the Homestead, and in the House the Nebraska bill are still lingering. Five months of the session have passed away, and but little of importance has been done. With the exception of Miss Dix's bill donating land for the benefit of the indigent insane, no measure of any importance, has passed, and even that does not meet the approval of the President.

The Pacific Railroad and all-kindred schemes for connecting the Atlantic and Pacific are in statu quo, and whether any of them will be reached this session is extremely doubtful. So also the bills for reorganizing the Army and Navy. In a few weeks the warm weather will be upon us, and of a consequence members will be less tardy. Before doing so, however, the Appropriation Bill will have to be disposed of, and as it always consumes a considerable time, the prospect of any other measure being consummated is by no means cheering.

The Nebraska bill still lies in a comatose state, in which it is hoped and believed it will continue to remain for all time to come. Its very helplessness is significant of peace and good will; but if it should ever rise up, and assume vitality and form, its gory head and bleared eyes—evidence of the struggle through which it has passed—will prove to be a dragon—equal to the seven heads and ten horns of Revelations—fraught with the direst calamity to our beloved country.

The speech of Col. Benton, on this bill, which was last week delivered in the House of Representatives, was not only a masterly effort of statesmanship, but as an argument it was scathing and convincing, and doubtless exercised a favorable influence on the House.
